OK 04 OK 09 .	1.	Переведите мини текст на русский язык. what’s it like to be the generation of teenagers? We dye our hair, put lots of make up on, pierce our body parts, have tattoos, etc. Nevertheless, there are many future great architects, artists, musicians, writers, medics and other professionals among us. Modern teenagers are even more independent, open-minded and creative. However, they are far lazier, because of the fast technical progress. Everyone has access to the Internet today. That’s why modern teens don’t want to read books or to write independently their homework. If in the lower grades kids are still pretty smart and willing to study, in high school they become average students with little or no academic achievements	

	2. Переведите мини текст на русский язык. Modern teenagers are so much different from previous generations. With the appearance of free Internet everywhere, be it in shops, on streets, even in the Tube, teens are almost always online and in touch with their friends. There are plenty of social networks, messengers, chat rooms and other resources that they use for communication. Even instant photo and video exchange is possible. For many teens Internet has already become an integral part of their life. Some study online, others play games. Some listen to music, others watch movies or read magazines. It all depends on individual interests.	
	3. Переведите мини текст на русский язык. The life of a teenager can be complicated sometimes. It is a difficult age and there are many problems on the way of becoming adults. For example, the choice of free-time activities, parent-child misunderstanding, the choice of future profession, dealing with the first love and so on. All teenagers have their own views on their life and future. They often stay alone with their thoughts because nobody seems to understand them. In this situation it's better to talk to someone who is more experienced in life matters.

I like shopping, but sometimes there are just no clothes that you want to buy. I like wearing casual clothes, which are comfortable. I like buying clothes, but sometimes I just don't have money for them. So I dream of having some special clothes, like for example a dress that can change colour or length. Then you don't have to buy dresses of different colour and think if you should get a short or long one. Just imagine how much money you can save.

A lot of interesting things await you ahead: new acquaintances, amazing events, visits to unusual places, beautiful nature. But in order to get to your destination, you need to take a train trip or flight. Most of the time my parents and I travel by air. And the time I'm on board of the plane is also full of miracles for me. It is difficult to describe the feelings that you experience when the plane gradually speeds up and then at some point smoothly	

		lifts off the ground. At that moment, I feel my head spinning and my heart wants to jump out of my chest. When the plane soars up and leans sharply, lying on one or the other wing, it gets even a little scary but then everything calms down and we soar peacefully above the ground.

9.	Переведите мини текст на русский язык. Russia is in many ways a wonderful country with a long and interesting history with many tragic reversals. But what do we really know about our homeland? What Russia is famous for, except that it is the biggest country in the world? Merit of Russia are great in such areas as science, culture, art, sports and military science. Many outstanding discoveries were made by the great Russian scientists: D. I. Mendeleev, A. S. Popov, K. E. Tsiolkovsky, A. D. Sakharov and others. The soviet cosmonaut Yuri Gagarin became the first man to master outer space. Books by A. S. Pushkin, M. Lomonosov, F. M. Dostoevsky, A.P. Chekhov and other Russian writers, poets and philosophers are known and read by people all over the world. Russian ballet is rightly regarded as the pinnacle of the world ballet and a hallmark of our country. Russia became the place of birth and creative work of such classical composers as P. I. Tchaikovsky, N. A. Rimsky-Korsakov, M. I. Glinka, and others.

They have influenced almost all human spheres of life. Today everybody knows such names as Pushkin, Tolstoy, Lomonosov, Tchaikovsky, Gagarin, Tereshkova, etc. It is impossible to name a scientific branch in which the Russian scientists haven't played a great role. For example, Dmitri Mendeleev, who was the creator of the Periodic System of Elements. Another important scientist, who made important contributions to literature, education and science, was Mikhail Lomonosov. He discovered the atmosphere of Venus and influenced the formation of Russian literary language. He was also the founder of Moscow State University. There is no official version of what the colours mean but some people believe that the white colour stands for generosity, blue for loyalty, and red for courage. Another symbolism is: white represents God that is at the top, red is peasants at the bottom, and blue is a tsar which is between the two. In 1994 the National Flag Day was established in Russia. It is celebrated on 22 August, but people work on this day. The flag is also raised on every national holiday.

	13. Переведите мини текст на русский язык. Director Chris Columbus's movie Home Alone is a wonderful Christmas comedy that always cheers me up on New Years Eve. Its plot is simple but at the same time entertaining and relevant, and the happy ending of the movie only adds charm to it. I feel a lot of sympathy for the main character of this movie the boy Kevin Mc Callister. I understand the complexities of his relationship with his elder brothers and sisters because there are several children in my family as well. Just like him, I often argue with my parents and tell them bad stuff that I regret later.	
	14. Переведите мини текст на русский язык. The book by Boris Vasiliev called «The Dawns Here Are Quiet» is one of those works that leaves a mark in the memory of the reader for a long time. The story is dedicated to the events of the Great Patriotic War, but its heroes were not at all strong courageous Russian soldiers, but fragile women. I think that's what impressed me in the first place. Five female anti-aircraft gunners were made the protagonists of his work and they were destined to die at the hands of German saboteurs, thus, the author showed all the mercilessness of the war. The tragic fate of the heroines made me vividly feel the horror of this terrible time.
