3.	Прочитайте текст и установите последовательность предложений в тексте. Текст задания: A) Dental technicians may also be employed by individual dentists or large laboratories. Б) Dental laboratory technicians receive their education in specialized technical schools. B) A dental technician can produce fixed cast prostheses and removable cast prostheses. Г) A lot of dental laboratory technicians maintain their own laboratories and can provide services for many dentists. Запишите соответствующую последовательность цифр слева направо: <table><tr><td>А</td><td>Б</td><td>В</td><td>Г</td></tr><tr><td></td><td></td><td></td><td></td></tr></table>						А	Б	В	Г				
А	Б	В	Г											
4.	Прочитайте текст и установите последовательность предложений в тексте. Текст задания: A) Microorganisms can be killed by steam, chemical agents and ultra-violet light radiation. Б) Hygiene is very important in the work of a dentist, that's why all the instruments are carefully cleaned or disinfected. B) It is usually done in autoclaves. Г) Dental instruments must be sterile i.e. free of all living microorganisms and their spores. Запишите соответствующую последовательность цифр слева направо: <table><tr><td>А</td><td>Б</td><td>В</td><td>Г</td></tr><tr><td></td><td></td><td></td><td></td></tr></table>						А	Б	В	Г				
А	Б	В	Г											
5.	Прочитайте текст и установите последовательность предложений в тексте. Текст задания: A) To remove larger deposits hygienists commonly use ultrasound instruments. Б) These deposits build up in the mouth over time. B) Most people refer to dental hygienists to have a dental cleaning during which plaque and tartar are removed from the teeth. Г) Small tartar deposits are scraped away from the tooth surface using fine tools. Запишите соответствующую последовательность цифр слева направо: <table><tr><td>А</td><td>Б</td><td>В</td><td>Г</td></tr><tr><td></td><td></td><td></td><td></td></tr></table>						А	Б	В	Г				
А	Б	В	Г											
6.	Прочитайте текст и установите последовательность предложений в тексте. Текст задания: A) Fauchard introduced dental fillings as treatment for dental cavities.													

	Б) His book is known to be the first complete scientific description of dentistry. В) Pierre Fauchard was a significant French physician. Г) He is widely known for his book “The Surgeon Dentist”. Запишите соответствующую последовательность цифр слева направо: <table><tr><td>А</td><td>Б</td><td>В</td><td>Г</td></tr><tr><td></td><td></td><td></td><td></td></tr></table>	А	Б	В	Г				
А	Б	В	Г						
7.	Прочитайте текст и установите последовательность предложений в тексте. Текст задания: А) Dental radiographs must be taken only by medical personnel specially trained in radiology. Б) One of the first clinical applications of X-rays was in dentistry. В) X-rays were discovered in 1895 by a German scientist Roentgen. Г) Dental radiographs, known as X-rays, are valuable diagnostic tools. Запишите соответствующую последовательность цифр слева направо: <table><tr><td>А</td><td>Б</td><td>В</td><td>Г</td></tr><tr><td></td><td></td><td></td><td></td></tr></table>	А	Б	В	Г				
А	Б	В	Г						
8.	Прочитайте текст и установите последовательность предложений в тексте. Текст задания: А) He examines his teeth and surrounding tissues. Б) When a patient comes to the dentist for the first time the dentist asks him some questions about his dental history and his health in general. В) This is the most common cause of tooth loss. Г) He checks his bite and asks if the patient has some gum diseases. Запишите соответствующую последовательность цифр слева направо: <table><tr><td>А</td><td>Б</td><td>В</td><td>Г</td></tr><tr><td></td><td></td><td></td><td></td></tr></table>	А	Б	В	Г

12.	Расположите предложения из текста в логическом порядке: А) Perhaps the most famous and widespread modern invention is the smartphone Б) The 21st century began not so long ago but it is already full of discoveries. В) The new millennium has presented people with many different and useful devices that can improve our lives. Запишите соответствующую последовательность цифр слева направо: <table><tr><td>А</td><td>Б</td><td>В</td></tr><tr><td></td><td></td><td></td></tr></table>				А	Б	В					
А	Б	В										
13.	Расположите предложения из текста в логическом порядке: А) It turned out to be able to create a wide variety of volumetric parts: from a smartphone case to complex high-tech prostheses. Б) Undoubtedly, in the future this device will be applied in construction, medicine, and military. В) In the 21st century, such an amazing device as a 3D printer was invented as well. Запишите соответствующую последовательность цифр слева направо: <table><tr><td>А</td><td>Б</td><td>В</td></tr><tr><td></td><td></td><td></td></tr></table>				А	Б	В					
А	Б	В										
14.	Расположите предложения из текста в логическом порядке: А) Thus, robotic vacuum cleaners have appeared in many homes, and interactive toys that respond to voice commands have appeared on the shelves of children's stores Б) But the future, of course, belongs to robotics and so many amazing smart machines were invented in the 21st century. В) For safety reasons, scientists have created robots-astronauts and robots-pilots. Запишите соответствующую последовательность цифр слева направо: <table><tr><td>А</td><td>Б</td><td>В</td></tr></table>				А	Б	В					
А	Б	В										

15.	Расположите предложения из текста в логическом порядке: A) Competitions are held in 197 skills organized into 7 blocks: the services sector, creativity and design, production and engineering technologies, transport and logistics, construction and construction technologies, information and communications technologies, education. Б) By late 2020 over 550 skills competitions had been held in Russia, with more than 40,000 competitors taking part annually. В) WorldSkills Russia organizes Skills Competitions by WorldSkills standards. Запишите соответствующую последовательность цифр слева направо: <table><tr><td>А</td><td>Б</td><td>В</td></tr><tr><td></td><td></td><td></td></tr></table>				А	Б	В					
А	Б	В										
16.	Расположите предложения из текста в логическом порядке: A) What is it worth only obtaining stem cells from the skin of an adult, which makes it possible to grow the vital organs without using embryonic cells! Б) Physics and biotechnology are developing most dynamically, where scientists have achieved successes that can claim the title of revolutionary. В) In the long term, it can significantly affect the quality of life of every person. Запишите соответствующую последовательность цифр слева направо: <table><tr><td>А</td><td>Б</td><td>В</td></tr><tr><td></td><td></td><td></td></tr></table>				А	Б	В					
А	Б	В										
17.	Расположите предложения из текста в логическом порядке: A) We can use wind, geothermal heat, water, and even the sun as a source of energy. Б) In the past, fossil fuels have become the main source of energy. В) Free energy or thermodynamic energy develops. Г) The development of technology has allowed us to use alternative energy sources. Запишите соответствующую последовательность цифр слева направо: <table><tr><td>А</td><td>Б</td><td>В</td><td>Г</td></tr><tr><td></td><td></td><td></td><td></td></tr></table>				А	Б	В	Г				
А	Б	В	Г									
18.	Расположите предложения из текста в логическом порядке:											

A) This has not only made it possible to continue international cooperation, but has also expanded the number of foreign partners interested in promoting the WorldSkills movement in their countries.
 B) In 2020, in response to the challenges of the pandemic WorldSkills Russia for the first time in the world held competitions and training seminars in a combined remote-in-person format which has since been adopted by other projects.
 B) WorldSkills Russia has also designed such unique competitions as WorldSkills Hi-Tech, WorldSkills Juniors, Skills of the Wise, industry competitions as well as competitions between universities- these products are unique to Russia and can help introduce candidate training systems at both the national and international levels.

Запишите соответствующую последовательность цифр слева направо:

A	Б	В

19. Расположите предложения из текста в логическом порядке:
 A) In today's world, robots, toys, and computers follow human orders and respond to needs according to their wishes.
 Б) Artificial intelligence is evolving to establish connections between humans and technology.
 B) Even the iPhone is equipped with artificial intelligence in the famous "SIRI" form.

Запишите соответствующую последовательность цифр слева направо:

A	Б	В

20. Расположите предложения из текста в логическом порядке:
 A) Each country has its own history, customs, traditions, and its own national holidays.
 Б) The nature of these countries, their weather and climate and the way of life of their people differ.
 B) They are situated in different parts of the world and differ in many ways.
 Г) Great Britain, the United States of America, Canada, Australia and New Zealand are English-speaking countries. 4

Запишите соответствующую последовательность цифр слева направо:

A	Б	В	Г

Задания открытого типа

1. Прочитайте и переведите текст с английского языка на русский.
 Текст задания:

	Russia is a highly developed industrial country. It has the world's largest reserves of mineral and energy resources. The country is rich in oil, coal, iron ore, natural gas, copper, nickel and other mineral resources. Despite the economic problems that Russia is facing nowadays, the country remains one of the leading countries in the world.
2.	Прочитайте и переведите текст с английского языка на русский. Текст задания: The economy of the Russian Federation is based on the rapid development of the most profitable sources of overall revenue, which is funded by the government. It means that the official policy of the country is the main driver of its future successes in this respect. The initial examination of this field showed that the evolving spheres of the economy mainly include oil and natural gas exportations, steel and aluminum, and other valuable resources. However, it is unclear how these aspects are changing at present.
3.	Прочитайте и переведите текст с английского языка на русский. Текст задания: Half a century ago English was just one of the international languages, accepted in the world. As the time passed, the role of English in the society has significantly increased. Nearly every adult in the world dreams to learn the basics of spoken and written English. On top of that, they want their children to know conversational English well.
4.	Прочитайте и переведите текст с английского языка на русский. Текст задания: Originally Russian education starts from the early age. Children can start going to kindergarten from the age of two, but this is not a compulsory education. It depends on parents' decision and child's wish to attend this institution. However, school is mandatory. Every child starts going to school from the age of seven and till 16.
5.	Прочитайте и переведите текст с английского языка на русский. Текст задания: Compulsory education in Russia is presented by three types of schools: primary, secondary and high. The primary school teaches its pupils elementary skills, such as reading, writing, counting. Many schools also offer foreign languages or some other special disciplines at this age. The most important period is the secondary school, which starts from the 4th or 5th grade, depending on school.
6.	Прочитайте и переведите текст с английского языка на русский. Текст задания:

	Historically, dental extractions have been used to treat a variety of illnesses. During the Middle Ages and throughout the 19th century, dentistry was not a profession in itself, and often dental procedures were performed by barbers or general physicians. Barbers usually limited their practice to extracting teeth which alleviated pain and associated chronic tooth infection.
7.	Прочитайте и переведите текст с английского языка на русский. Текст задания: More people are retaining their teeth into later years of life as a result of better dental care. However, these teeth and their supporting structures will likely begin to experience dental problems such as caries and periodontal diseases. One study has reported that two-thirds of adults treated for advanced periodontal disease develop root caries, affecting about 5 per cent of their periodontally treated teeth. The seriousness of this problem is highlighted by the fact that no methods presently exist to satisfactorily restore the destruction of the root caused by this lesion.
8.	Прочитайте и переведите текст с английского языка на русский. Текст задания: Dentists treat patients at dental surgeries. A modern dental surgery is a large and light hall. One can see some universal equipment here to fulfill the needs of the dentist. First of all, there are units including engines with arm-chairs for patients. The patients can sit or lie in the arm-chair. There are also small chairs for dentists, they are movable and comfortable.
9.	Прочитайте и переведите текст с английского языка на русский. Текст задания: When multiple implants are placed to support an entire set of replacement teeth, it's possible to use those teeth right away without causing failure of the implants. That's because the 4-6 implants used in each jaw are joined together as a single unit, which keeps them stable during the healing process.
10.	Прочитайте и переведите текст с английского языка на русский. Текст задания: There are many colleges and universities in our country, but it is not easy to enter a university or college as the competition is rather fierce. Most of the colleges and universities are public and students do not have to pay for their education. After 4 years of study students can pass examinations and get a bachelor's degree, after 5 years a specialist's degree and after

	6 years a master's degree.
11.	Прочитайте текст и ответьте на вопрос: "How does a modern dental surgery look like?" A modern dental surgery is a large and light hall. One can see some universal equipment here to fulfill the needs of the dentist. First of all, there are units including engines with arm-chairs for patients these are quite modern easy-to use dental unit systems. The patients can sit or lie in the arm-chair.
12.	Прочитайте текст и ответьте на вопрос: "What instruments can you see on an instrument table?" There are also small chairs for the dentists, they are movable and comfortable. There is an instrument table or an instrument holder near every arm-chair. You can see some instruments on it. There is a tray with a set of instruments such as: an explorer, a mixing pad, a pincette, a dental mirror, a probe and some others.
13.	Прочитайте текст и ответьте на вопрос: What instruments are there in instrument cupboards? There are also instrument cupboard with many instruments in it. We can see temporary filling materials, composites, cements, bonding systems for restoration work; reamers, files, paper and gutta-percha points, seals for endodontics.
14.	Прочитайте текст и ответьте на вопрос: Why is Hygiene very important in the work of a dentist? Hygiene is very important in the work of a dentist, that's why all the instruments are carefully cleaned or disinfected. Dental instruments must be sterile – free of all living microorganisms and their spores.
15.	Прочитайте текст и ответьте на вопрос: How can instruments be sterilized? Microorganisms can be killed by steam, chemical agents, electron bombardment and ultra-violet light radiation. It is usually done in autoclaves.
16.	Прочитайте текст и ответьте на вопрос: "What equipment can one see in a dental office?" A modern dental surgery is a large and light hall. One can see some universal equipment here to fulfill the needs of the dentist. First of all, there are units including engines with arm-chairs for patients these are quite modern easy-to use dental unit systems.
17.	Прочитайте текст и ответьте на вопрос: "Are modern dental unit systems easy to use?" First of all, there are units including engines with arm-chairs for patients these are quite modern easy-to use dental unit systems. The patients can sit or lie in the arm-chair.
18.	Прочитайте текст и ответьте на вопрос: "What table is there at the dentist's disposal?" There is an instrument table or an instrument holder near every arm-chair. It can be easily moved to be at the dentist's disposal.
19.	Прочитайте текст и ответьте на вопрос: "Is it movable?"

	There is an instrument table or an instrument holder near every arm-chair. It can be easily moved to be at the dentist's disposal.				
20.	Прочитайте текст и ответьте на вопрос: "What types of air-driven handpieces are used in restorative dentistry?" There are two types of air-driven handpieces which are used in restorative dentistry: low-speed handpieces which operate at speeds up to 25.000 rotations per minute and high-speed handpieces which operate at speeds up to 450000 rpm.				
	Практические тестовые задания				
1.	Поставьте глагол в нужную форму: Поставьте глагол в нужную форму: Invisalign ... clear, practically invisible braces that can gently straighten your teeth. A) are Б) is B) have Запишите выбранный ответ - букву: <table><tr><td>A</td><td>Б</td><td>B</td></tr></table>	A	Б	B	
A	Б	B			
2.	Поставьте глагол в нужную форму: VELscope ... a special type of light that a dentist will shine in a patient's mouth to detect any abnormalities. A) are Б) is B) to be Запишите выбранный ответ - букву: <table><tr><td>A</td><td>Б</td><td>B</td></tr></table>	A	Б	B	
A	Б	B			
3.	Поставьте глагол в нужную форму: Ivan Pavlov ... conditioned reflexes (условные рефлексy) in animals. A) study Б) studies B) studied Г) will study Запишите выбранный ответ - букву: <table><tr><td>A</td><td>Б</td><td>B</td><td>Г</td></tr></table>	A	Б	B	Г
A	Б	B	Г		

4.	Поставьте глагол в нужную форму: Dental implants ... screw-replacements for the root portion of missing teeth. A) is Б) are В) have Запишите выбранный ответ - букву: <table><tr><td>A</td><td>Б</td><td>В</td></tr></table>	A	Б	В	
A	Б	В			
5.	Поставьте глагол в нужную форму: Australia and New Zealand ... other English-speaking countries. A) to be Б) are В) is Запишите выбранный ответ - букву: <table><tr><td>A</td><td>Б</td><td>В</td></tr></table>	A	Б	В	
A	Б	В			
6.	Поставьте глагол в нужную форму: As a second language English ... in more than 60 countries. A) is spoken Б) speaks В) spoke Г) has spoken Запишите выбранный ответ - букву: <table><tr><td>A</td><td>Б</td><td>В</td><td>Г</td></tr></table>	A	Б	В	Г
A	Б	В	Г		
7.	Закончите предложение: Andrei Sakharov ... the hydrogen bomb in 1953. A) invents Б) invented В) has invented Г) is invented Запишите выбранный ответ - букву: <table><tr><td>A</td><td>Б</td><td>В</td><td>Г</td></tr></table>	A	Б	В	Г
A	Б	В	Г		
8.	Поставьте глагол в нужную форму: Lasers ... to improve efficiency and eliminate discomfort in a number dental procedures, including filling cavities, reducing				

	tooth sensitivity, getting rid of tumors, and whitening. A) is used Б) are used B) used Запишите выбранный ответ - букву: <table><tr><td>A</td><td>Б</td><td>В</td></tr></table>	A	Б	В	
A	Б	В			
9.	Прочитайте текст и ответьте на вопрос: What does a health and social care practitioner offer? A health and social care practitioner offers a range of support to individual clients and their family and has a continuing responsibility to work professionally and interactively with the client in order to ensure their holistic care needs are met. Whilst the health and social care practitioner may work directly for the client they are normally employed by an organization within the health and social care sector. Health and social care is closely associated with the medical profession. A) to gain understanding of clients' perspectives through careful discussion with them Б) problem solving, innovation and creativity B) a range of support to individual clients and their family Запишите выбранный ответ - букву: <table><tr><td>A</td><td>Б</td><td>В</td><td>Г</td></tr></table>	A	Б	В	Г
A	Б	В	Г		
10.	Прочитайте текст и ответьте на вопрос: What is the skill competition intended to reflect? The World skills occupational standards specify the knowledge, understanding, skills, and capabilities that underpin international best practice in technical and vocational performance. These are both specific to an occupational role and also transversal. Together they should reflect a shared global understanding of what the associated work role(s) or occupation(s) represent for industry and business. The skill competition is intended to reflect international best practice as described by the WSOS, to the extent that it can. The Standard is therefore a guide to the required training and preparation for the skill competition. A) international best practice Б) organization within the health and social care sector B) and preparation for the skill competition.				

	Запишите выбранный ответ - букву: <table><tr><td>А</td><td>Б</td><td>В</td></tr></table>	А	Б	В	
А	Б	В			
11.	Прочитайте текст и ответьте на вопрос: What does employment refer to? Employment and career are crucial aspects of an individual's life, influencing personal fulfillment, financial stability and social contribution. Employment refers to the state of having a job, where individuals perform specific duties in exchange for wages or salary. A career, on the other hand, encompasses a long-term professional journey, characterized by growth, development, and progression within a particular field of industry. А) encompasses a long-term professional journey Б) to the state of having a job В) long-term professional growth Запишите выбранный ответ - букву: <table><tr><td>А</td><td>Б</td><td>В</td></tr></table>	А	Б	В	
А	Б	В			
12.	Прочитайте текст и ответьте на вопрос: What can professional development include? Career development goes beyond mere development. It involves setting long-term professional goals, acquiring new skills, and seeking opportunities for advancement. Professional development can include continuing education, attending workshops, obtaining certificates, and gaining hands-on experience. Mentorship and networking play significant roles in career growth, providing guidance and opening doors to new opportunities. А) continuing education, Б) attending workshops В) obtaining certificates Г) adaptability Запишите выбранный ответ – букву или несколько: <table><tr><td>А</td><td>Б</td><td>В</td><td>Г</td></tr></table>	А	Б	В	Г
А	Б	В	Г		
13.	Прочитайте текст и ответьте на вопрос: «What is the main aim of a 3D printer? » In the 21st century, such an amazing device as a 3D printer was invented as well. It turned out to be able to create a wide variety of volumetric parts: from a smartphone case to complex high-tech prostheses. Undoubtedly, in the future this device will be applied in construction, medicine, and military. Today, scientists are seriously considering using it for food production. А) to produce medicines				

	Б) to produce food В) to create a wide variety of volumetric parts Запишите выбранный ответ - букву: <table><tr><td>А</td><td>Б</td><td>В</td></tr></table>	А	Б	В	
А	Б	В			
14.	Прочитайте текст и ответьте на вопрос: «What are drones used for? » Drones circling over our heads are also the invention of the new millennium. These devices are able to move quickly in the air, taking high-quality images of objects and videos, even from a long distance. Today, most of the panoramic videos we see on TV are made by drones. Drones are also used for shooting films, as well as for security purposes and even in agriculture. А) for security purposes Б) for treating patients В) for transferring people Запишите выбранный ответ - букву: <table><tr><td>А</td><td>Б</td><td>В</td></tr></table>	А	Б	В	
А	Б	В			
15.	Поставьте глагол в нужную форму: The doctor ... in London a week ago. А) ... arrives Б) ... arrived В) ... will arrive Г) ... is arriving Запишите выбранный ответ - букву: <table><tr><td>А</td><td>Б</td><td>В</td><td>Г</td></tr></table>	А	Б	В	Г
А	Б	В	Г		
16.	Поставьте глагол в нужную форму: Helen ... hard surfaces at the moment. А) ... disinfects Б) ... has disinfected В) ... is disinfecting Г) ...will disinfect Запишите выбранный ответ - букву: <table><tr><td>А</td><td>Б</td><td>В</td><td>Г</td></tr></table>	А	Б	В	Г
А	Б	В	Г		
17.	Поставьте глагол в нужную форму: Biology is going to be much ... than Chemistry.				

- A) ... more difficult
 Б) ... difficulter
 В) ... the most difficult
 Г) ... the least difficult

Запишите выбранный ответ - букву:

А	Б	В	Г
---	---	---	---

Практические задания – деловые игры

18. Тема: Разговор по телефону / Phone Conversation
 Концепция игры: Имитационно-деловая игра «Телефонный разговор» проводится с целью закрепления и прочного усвоения лексического материала по теме «Основы делового общения». В игре принимают участие все обучающиеся студенты группы, объединяясь в пары. Один из обучающихся играет роль зубного техника, другой – стоматолога. Стоматолог звонит в зуботехническую лабораторию и спрашивает, изготовлен ли зубной протез. Зубной техник отвечает на вопрос, объясняет причины задержки выполнения заказа и предлагает сроки его выполнения. Игра не только способствует совершенствованию иноязычной речи студентов и более полному овладению иностранным языком как средством профессионального общения, но и является средством психологического развития студентов. Помимо приобретения некоторых профессиональных качеств, таких как умение вести переговоры, планировать, организовывать свою деятельность, работать в коллективе, в ходе деловой игры развиваются умения предлагать варианты выхода из нестандартной ситуации.
 Роли: врач-стоматолог, зубной техник.
19. Тема: Личная встреча с работодателем / Personal meeting with the employer
 Концепция игры: Имитационно-деловая игра «Личная встреча с работодателем» проводится с целью закрепления и прочного усвоения лексического материала по данной теме. В игре принимают участие несколько студентов из группы. Каждый играет свою роль: работодатель, секретарь, стоматолог
